Don Baxter and Doug Collins Open New Firestone Tire Sales And Service in Harvel Building

Don Baxter and Douglas Collins, two well known Torrance men, have been appointed by the Firestone Tire and Rubber Company as their dealers in Torrance and vicinity.

Workmen have been busy this week building a modern tire sales-room and repair department at 1618 Craven avenue, adjacent to the Harvel Willard Battery Station, where Baxter and Collins will open for business Monday, August 20, with the complete line of Firestone built tires and tubes.

Mr. Baxter has had 18 years experience in tire rebuilding and repairing, part of which time he was employed in one of the largest tire factories of the United States. It was his knowledge, gleaned from this 18 years' working experience, that prompted Mr. Baxter to choose the Firestone line in preference to many others which were offered him, when it was learned that he

was to open a tire store in Torrance.

Douglas Collins has been associated with Mr. Baxter in much of his tire experience as well as other phases of automotive work in Torrance and elsewhere.

The new repair shop at 1618 Craven avenue is being equipped with the latest and most improved Firestone-bull vulcanizing and retreading equipment, and a complete line of Firestones tires and tubes will be carried in stock in Torrance.

Both Messrs. Baxter and Collins have lived in Torrance for over eight years and they are inviting their friends and the general public to the formal opening of their new sales and service building on Monday, August 20. Demonstrations of the new methods of tire re-building will be made all day Monday and will be found very interesting, Mr. Baxter said.

Movie Stars Favor Majestic

Majestic all electric radio is in the spotlight of favor at the motion picture studios in Hollywood. Chester Conklin, Paramount star, demonstrates Majestic's position in public favor by training on the model 71 console one of the big Kleig lights in use at the Paramount studios.

Week's World News

(Continued from page 1)
generations. I believe that large gifts should not be restricted to narrowly specified objects and that under no circumstances should funds be held in perpetuity. Having confidence in trustees, I am not opposed to endowments for colleges or other institutions which require some continuity of support, provided permission is given to use part of the principal from time to time as needs arise. This does not mean profligate spending. It is simply placing confidence in living trustees; it prevents control by the "dead hand"; it discourages the building up of bureaucratic groups of men, who tend to become over-conservative and timid in investment and disbursement of trust funds.

"I have been gratified to read a recent statement of Mr. Rockefeller approving the principle that a trust fund be entirely expended within twenty-five years of the death of the donor. He, as well as I, seems to have confidence that future generations will meet their own needs wisely and generously."

Sir Austen Chamberlain, British foreign secretary, is not well. Physicians advise an ocean trip. Sir Austen says he has read and heard so much of California and will visit the Pacific Coast within a few weeks.

Night roamers near Charlottesville, Va. were startled. Negroes fell to the ground in fright, prayed. A long, white, piercing shaft of light pierced the darkness, the rain and gloom. The ray came from a billion candle-power light. Alighting on the fusty of a rocket two miles away, the rays focused enough heat to set off the piece of fireworks. The demonstration was in commemoration of Thomas Jefferson, statesman, investigator and inventor.

The American Telephone and Telegraph Company and the Western Union will merge. Vast economies will be effected. Parallel pole lines will be eliminated over many thousands of miles, other wasteful practices eliminated.

Mrs. Fred Nelson was a Long Beach visitor Monday.

U.S.C. Honor Student Comes to Torrance

Dr. Bingham Takes Over Office of Dr. Hoag, Dentist

Dr. Robin A. Bingham, graduate of the dental college of the University of Southern California, began practicing this week in Torrance where he has taken over the

Photo by LaPlante.

office of his cousin, Dr. R. A. Hoag, in the Edison building. Dr. Bingham was awarded the merit scholarship medal by the Los Angeles County Dental Society for having attained the highest average grades in his four year course in U. S. C. He was also elected a member of the O. K. U., an honorary dental fraternity. Since graduating last June, Dr. Bingham has been in Palo Alto taking a post graduate course in dentistry at Leland Stanford University.

Dr. Hoag will devote his time for some time to advance study in dental surgery.

Mad Passion Tragedy Cause

(Continued from page 1)
horns sent word to Torrance police. Sergeant John Stroh went to the home of tragedy.

There the little girl told her story, and the Japanese adviser and the dead woman's brother related to county and Torrance authorities the strange tale of sexual insanity which had led to the double killing.

OBSERVATIONS

(Continued from Page 1)

who has visited these parks, particularly the county playground in the mountains will testify to their immense value to the people of the Southland.

MR. McCLELLAN is captain of the militant forces which are striving to save the beaches from the clutches of private interests and preserve them for the use of the people. Probably no greater work can be accomplished than this. Unless leaders with Mr. McClellan's experience are retained in office to carry on the fight the time is not far distant when there will not be one more stretch of strand in Los Angeles county left for the people.

ON the business side of the ledger the capabilities of Mr. McClellan rank high. His record is one of the capable handling of the people's money. Millions of dollars pass annually through the hands of the Board of Supervisors. Supervisor McClellan has been in the front ranks of the contingent striving for the utmost economy in county expenditures. The record of his service as supervisor is a record of which any official could well be proud.

THE people of Los Angeles county would not do well to trade his experience for inexperience, nor his proved ability for untried merit.

The people of Torrance and Lomita would not do well to trade a supervisor who is doing his utmost to grant their wishes and promote their district for some unknown individual whose interests lie elsewhere.

WE do not wish to plead the cause of sectionalism. But we feel that Mr. McClellan appreciates the importance of development in this district without losing sight of the needs of other sections of the county. It is just possible that some of the other candidates for supervisor may not be so broadminded; that their interests are more or less closely confined say to the Culver City or Inglewood areas.

R. F. McClellan should be elected, not only for the good of this great harbor district but for the continued benefit of the entire county.

"The Cossacks" John Gilbert Picture Coming

Colorful Russian Romance to Show in Torrance August 19-20

Men who braved death on many war fronts; a troop of hard-riding Cossack soldiers who fought for the Czar and with the White army, traveled from Europe to turn screen actors, when they rode with John Gilbert in "The Cossacks," Metro-Goldwyn-Mayer's spectacular epic of Russia coming Sunday and Monday, Aug. 19-20, to the Torrance Theatre.

"The Cossacks" is one of the most elaborate screen plays of the season. With Gilbert in the leading role as a young Cossack soldier, and Renee Adoree as his heroine, a cast that included Ernest Torrence, Mary Alden, Nell Neely, Dale Fuller, Josephine Berto, York Sherwood, Paul Hurst, Joseph Mart and others of note played with the throng of Russians, who regarded it as not merely a picture but as a labor of love for the glory of their native land. George Hill, director of "Tall It to the Marines," directed the huge feature.

Tool Team Wins 1st Title Tilt

Defeats Dangerous P. E. Nine in Hard-Fought Game Wednesday

The scrappy squad of soft ball pastimers from the National Supply Co. (Union Tool) won the first leg of a three-game championship series with the Pacific Electric nine on the Cabrillo avenue lot Wednesday night by a score of 4 to 1. The next game in the series for the best two out of three will be played next Wednesday night.

About 300 fans watched the game which was packed with thrills. Both sides put over one run in the first inning. Spud Murphy's crew tallied thrice in the fourth. With one on the P. E. pitcher chose to donate a walk to George Watson, who was playing star ball. That put two on and Art Hodges at bat. Art liked the second ball pitched and smacked it deep into left center for a home run, winning the old ball game. Nobody scored after that.

Two beautiful catches by Bob Lessing, right fielder for the Tool-ers, prevented scores by the P. E. On several occasions dangerous rallies by the Electric were nipped by good pitching and fast fielding on the part of the Murphy contingent.

Prior to the start of the game it was discovered that the P. E. list of eligible players had been lost and Spud played the contest under protest.

Although the score was 4 to 1 the game was mighty close with the P. E. threatening time after time to break it up with a flock of counters.

George Watson played a great game behind the plate for the Tool team. On one occasion he dove headlong over the plate to catch a foul, which he grabbed while lying face down in the dirt, just before the ball hit the ground. Atwood pitched a heady game.

Miss Lorna Thistle and Glenn Hamneck attended the Pacific Southwest Exposition Sunday.

Dr. Hoag will devote his time for some time to advance study in dental surgery.
